

351 Steinhaus Instructions (Presentation Only)

1. Turn on the Display by pressing the **“On”** button on the control panel by the door.
2. Once the **“Dunlop BioSci” Logo** appears, you may connect in one of the following two ways:
 - a. Use the **HDMI Cable** below the display. This will automatically share your screen after about 5 seconds.
 - b. By opening the **Zoom App** on your device and selecting the Share Screen button. (Your screen may automatically share after about 5 seconds.)

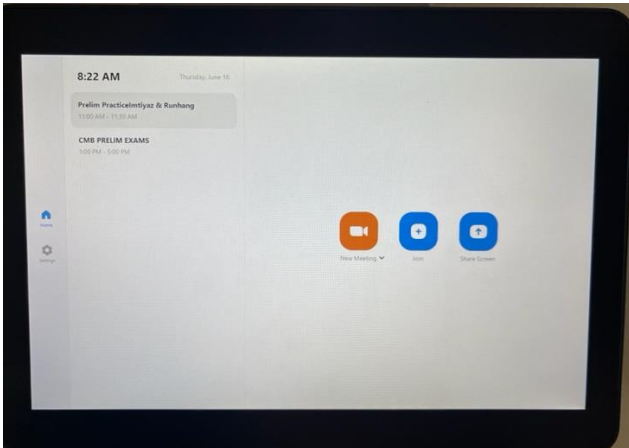

- i. If your screen doesn't automatically share, you will be prompted to enter the **“Sharing Key”** from the TV. This will wirelessly share your screen.

Instructions (Zoom Meetings)

1. Turn on the Display by pressing the **“On”** button on the control panel by the door.
2. Use the touch screen to the left of the display to **“Start A Meeting”**, **“Join A Meeting”**, or **“Share Screen”**.

3. You may manage the Zoom meeting by using the Zoom controls on the same touch panel or by joining the Zoom from another device as a host.
4. In order to **“Share Screen”** to the display during a Zoom meeting you can do either of the following:
 - a. Connect to the HDMI cable below the display. This will automatically share your screen after about 5 seconds to the room as well as the Zoom meeting.
 - b. By opening the Zoom app on your device and selecting the Share Screen button.
